shorn of all subtlety and led naked out of the protective fold of educational research literature there comes a sheepish little fact lectures don't work nearly as well as many of us would like to think george cobb 1992 this book contains activities that guide students to discover statistical concepts explore statistical principles and apply statistical techniques students work toward these goals through the analysis of genuine data and through interaction with one another with their instructor and with technology providing a one semester introduction to fundamental ideas of statistics for college and advanced high school students

warkshop statistics is designed for courses that employ an interactive learning environment by replacing lectures with hands on activities the text contains enough expository material to stand alone but it can also be used to supplement a more traditional textbook some distinguishing features of workshop statistics are its emphases on active learning conceptual understanding genuine data and the use of technology the following sections of this preface elaborate on each of these aspects and also describe the unusual organizational structure of this text

special edition of the federal register containing a codification of documents of general applicability and future effect with ancillaries

written for project management professionals who understand how projects are managed and wish to learn how to plan and control projects with or without resources using primavera contractor the spiral bound version will be useful for training courses and for learning the software

this hands on tutorial will teach drupal developers across the experience spectrum how to use attachment displays in views to make quick progress in functionality and added value to users views are a common way to display a collection of similar content types on one page this book provides several examples of introducing additional displays onto a web page and having them interact with each other the result is pages that provide several types of information and behave more like a desktop application increasing the value to your site visitors resource description p

triant flouris is a prominent academic and administrator in aviation management education dennis lock has more than forty years experience in practising lecturing and writing about project management when these two experts combined their considerable talents to write their earlier book aviation project management it was little wonder that distinguished reviewers gave generous praise and acclaimed it as a welcome addition to what until then had been a neglected field that first title was structured as an essential primer for managers and students the authors have now written this more in depth book for managers and students who need to study aviation project management in much greater detail as well as critically connect project management within an aviation context to prudent business decision making aviation project management is described in considerable detail throughout all stages of a lifecycle that begins when the project is only a vague concept and does not end until the project has been successfully completed fully documented and put into operational service aviation projects have commonly failed to deliver their expected outcomes on time and have greatly exceeded their intended budgets many of those failures would have been prevented if the project managers had adhered to the sound principles of project management as described and demonstrated throughout this book

although the importance of steric fit for receptor effector 1 interactions was recognized since emil fischer proposed his lock and key theory the whole area of steric properties is still in a very 2 4 early stage of development we have a fairly good idea about el tronic and hydrophobic parameters but it is not easy to describe ste

ric shapes of molecules without a large number of data there are several cases of good qsar's developed for rather large series of molecules without steric parameters for example see papers by hansch 6 or franke but the state of steric parameters is nevertheless one of the most important drawbacks especially concerning the ability of encompassing within a single qsar molecules of different shapes and stereoisomers from today's steric parameters one may mention the 7 taft parameters e which gave good results in organic chemistry the s 8 10 rather cumbersome way of measuring shape factors 0 f amoores and 11 12 allinger and the 1 b b parameters of verloop 1 4 the work described here consists of two types of approaches to the steric fit problem the first approach consists of developing new parameters to describe different characteristics of the molecular shape i e branching bulkiness this is done by means of topological indices
